From the President

Traveling Software

Dear Friend:

In the pages that follow we have collected another group of new and improved products that we are quite excited about.

Just as the progress in the world of computers continues to leap forward, so does the group of products we offer you. We divide our time between making sure we stay on the cutting edge of progress and making sure that everything that goes in our catalog is something we can be proud of. If we don't use it and like it, we won't sell it!

In the adjoining picture you will see one of these exciting new items. The WIZARD by SHARP. It's an 8 oz. "coat pocket computer". We are proud to say we designed the PC interface and also wrote the time/expense manager applications program. For the full story turn to Page 15.

New to our catalog is Battery Watch, which is a reliable and accurate battery monitor that warns you in time to save files before your battery dies.

We have upgraded some of our most popular products; DeskLink, LapLink and LapLink Mac are all more powerful and easier to use. DeskLink now operates in the background. A true two station network for under $170.00 complete!

As always, our goal is your complete satisfaction. If you're not happy, then we're not happy. It's that simple. If there is anything we can do to satisfy your requirements more completely, please let us know. Drop me a line, or call our Customer Service Department.

Best regards,

Mark Eppley

Mark Eppley, President
Traveling Software

P.S. Our cover features a new concept, Laptop Presentations. Our package features some new items to make developing and giving presentations faster, easier and more professional looking by using your laptop computer. (See Page 8)

LATE NEWS! Can't see your laptop cursor! Ken Skier's "No Squint" laptop cursor program is for you.

Connect any two IBM compatible computers!

DESKLINK 2.0

Link any two computers up to100 feet apart in minutes and get total background (terminate and stay resident) disk drive and parallel printer sharing capabilities! Using ordinary serial ports and RJ11 Phone Wire (included).

Instant Network

Run a simple installation program and connect the two computers with the DeskLink cable. No additional parts or procedures. DeskLink, just like a two computer network but without the headaches! . . .or expense!

Flexibility

Change connected disks or printers on either system with a few keystrokes. Not necessary to reconfigure or reboot your computer. Print a draft document on your local printer, then print a final document on a remote computer's laser printer with just three keystrokes.

Instant Two Way Communications

Using the DeskLink pop-up "talk box", carry on a conversation or send a message to another DeskLink computer.

Print Spooling Saves You Time

Continue working on another task even while your computer is busy printing. You can also access two printers or computers simultaneously.

Compatible With The "Big" Networks

DeskLink II is fully compatible with big office computer networks such as Novell, Token Ring and 3 Com. Add new computers to a "full" network by attaching them to a networked computer using DeskLink. No need for additional expensive network cards or cabling.

Less Than $85 Per Computer!

DeskLink breaks new ground for a plug'n play two computer network and does so at the incredible price of only $169.95 – including cables!

Satisfaction Guaranteed! You must be completely satisfied or your money back. It's as simple as that!

DESKLINK
Traveling Software
DESK-LINK
DESK-LINK
The ultimate Disk and Printer Sharing Solution for desktop and laptop computers.

Special Bonus Includes the DeskLink Mgr. program.

DeskLink Features

- Connects any two computers together by ordinary RJ11 phone wire up to 100 feet. (25 feet included)
- Complete sharing of disk drives and parallel printers between computers.
- Installs in minutes without costly add-in boards or complicated configurations.
- Incredible transfer speeds of over 115,000 baud using a single RS232C serial port.
- Includes the DeskLink Disk Manager file transfer program.
- Fully compatible with the new IBM PS/2 computers. Great for connecting 3-1/2" and 5-1/4" disk computers.
- Includes a pop-up "talk box" for two way communications between computers at any time, regardless of the type of application being used.
- Instant switching between local and remote printers. Great for sharing a laser printer.

DATASTAR™

WORLD CLASS LAPTOP MODEM

For Zenith, Toshiba and NEC

The first internal modem for a laptop that actually works to save battery power! When on it draws less than half the power of most modems, and it allows you to turn the unit off when not in use. Other modems draw power all the time!

Enhance your laptop computer with the Datastar 2400 bps internal modem featuring TPO™-TRUE POWER OFF providing extended battery operation. Datastar is compatible with the industry standard "AT" and "Extended AT" command sets, allowing you to use all popular PC communications software.

Datastar is so well designed that the manufacturer, Quay Computer Corporation, backs it with an amazing three year warranty! To make use even easier they include the popular Freeway™communications program.

DATASTAR Features:

- TPO™— TRUE POWER OFF, allows the modem to be turned off when it is not in use.
- 2400, 1200 and 300 bps auto-selectable data rates.
- Low distortion phone interface for fewer errors.
- Digital signal processor with adaptive equalization conditions line signal to compensate for distortion.
- Internal installation without special tools.
- Compatible with "AT" and "Extended AT" command sets.
- Operates at faster laptop CPU clock speeds.
- Non-volatile storage of modem settings and phone number.
- Full or half duplex operation.
- Compatible with CCITT, V.22, V22bis; Bell 103 and 212A standards.
- Complete package includes communications software and cable.

The DATASTAR is available for the following models:
Zenith Supersport, Supersport 286, Z-181 & 183
Toshiba 5100, 3100, 1200, 1100+
NEC Multispeed (all models)

DATASTAR Order # AC-FX-02 **$399.00**

SPECIFICATIONS:

Compatibility	Bell 103, 212A, CCITT V.22, V.22bis
Data Rate	300, 1200, 2400 bps (bits per second)
Operation	Full or half duplex, asynchronous. Auto answer/auto dial.
Command Support	Compatible with industry standard "AT" and "Extended AT" modem command sets.
Memory	Non-volatile storage of modem settings and phone number.
Command Buffer	40 characters.
Audio Monitor	Call progress monitoring through system speaker.
Power On/Off	TPO™—True Power Off software control.
Receive Sensitivity	−45dBM

Transmit Level	−9 dBM nominal
Telephone Line	RJ11C jack, with low distortion interface.
Power Consumption	
—On	Less than 400 mW total power
—Off	Less than 75mW
Diagnostics	Local digital and analog loopback; remote digital loopback.
Operating Temperature	−20°C to 70°C.
Set-Up	Software only, no dip switches or jumpers.
Leased-Line Operation	2 wire (standard)
Software	Included
Warranty	3 year repair or replace.

The fastest, easiest way to transfer information

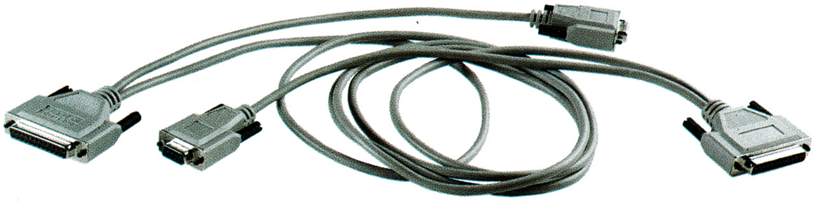
LAPLINK Plus

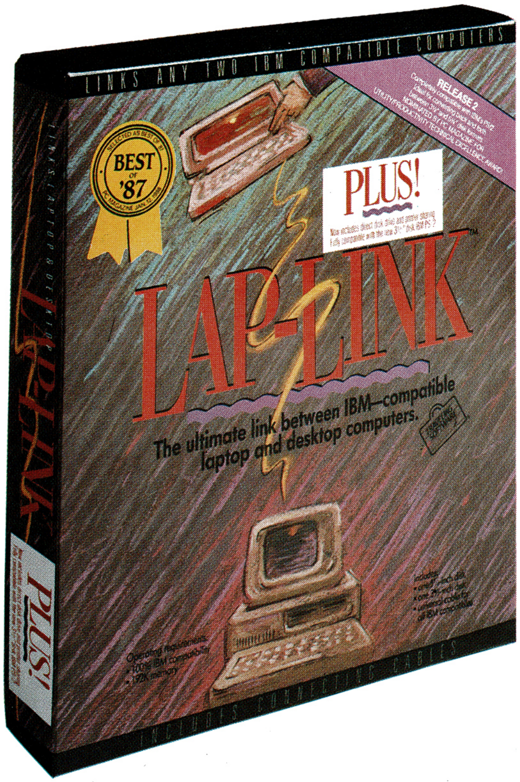
In less than two years LAPLINK has connected over 200,000 computers to become the standard in accessability software for IBM's and compatibles, laptops and Apple Macintosh computers. (LapLink Mac-see P. 16)

LAPLINK Plus can be up and running within seconds of opening the box. Requires absolutely no installation; no messy changes to a CONFIG. SYS file or the restarting of your computer. Includes software and a quality universal cable that will connect any two IBM compatible desktop or laptop computers. LAPLINK Plus also transfers information faster than any other product of its kind. Up to 115,200 baud (bits per second).

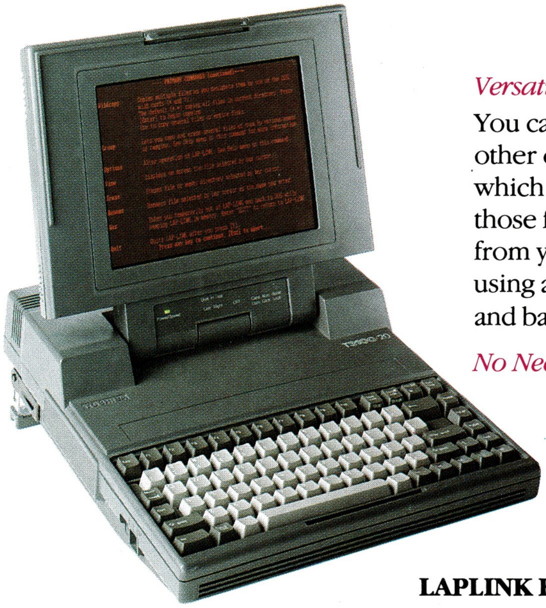
Error Free

No chance of an error with LAPLINK Plus. It automatically checks all transferring information for validity.





LINKS ANY TWO IBM COMPATIBLE COMPUTERS
RELEASE 2
BEST OF '87
PLUS!
LAP-LINK
The ultimate link between IBM-compatible laptop and desktop computers.
INCLUDES CONNECTING CABLES
LAPLINK PLUS!



Versatile

You can "tag" files on either computer which can then be sent to the other computer. For example, tell LAPLINK Plus to copy only those files which have been created within a particular time frame. Tell it to copy only those files that are new or updated. Access a printer or disk drive directly from your laptop or remote desktop. Run or install 5-1/4" software using a 3-1/2" disk computer. Compatible with most disk management and backup software including Fastback Plus.

No Need For Expensive Disk Drives

You'll find LAPLINK Plus incredible transfer speed much faster than a normal disk copy, transferring megabytes in just seconds. Weighing only ten ounces, LAPLINK Plus can be easily carried with you for instant connectivity at any location.

LAPLINK
LAPLINK

LAPLINK Features

- Provides direct disk access and printer sharing between two computers
- Transfer speeds over 115,000 baud
- Turbo option increases speed up to 50%
- Unique split window file selection
- Includes file tagging, XTREE like disk management and directory sorting
- Can be used for hard disk backup to 3-1/2" floppies
- Supports all IBM PS/2 computers
- Includes both 3-1/2" and 5-1/4" disks with unique universal "4 headed" cable

Small Bag For A Big Job

Notebook Computer Bag

This small (13"×15"×3") bag fits the Toshiba T1000 and the Tandy 200 perfectly, plus the outside zippered pocket will carry the Diconix printer! Sporting a carrying handle and an adjustable shoulder strap, the Notebook Bag also contains a portable desk kit including: Typing paper, pencils, a pen, yellow highliner, scissors, measuring tape, stapler, pencil sharpener, glue, box cutter, cellophane tape, ruler, staples, eraser and paper clips. Constructed of durable Cordura Nylon. A great value!

Notebook Computer Bag Order # AC-BG-04 **$29.95**

Beat the FAA Airline Carry-on Rules!

Siamese Twins Computer Bag

The two carry-on bag rule is now being strictly enforced by the airlines.

Zipped together it's a single carry-on bag for your laptop and a portable fax unit or a change of clothing. When you get there zip them apart and you have two bags to take what you need to your meeting! Shock protected, adjustable and constructed of weather proof Cordura in Smoke Grey and Black. (all of the features of the Ultimate Laptop times two! Described below)

Siamese Twins Order # AC-BG 03 **$119.95**

Fits Virtually All Laptops

The Ultimate Laptop Attache

After evaluating more than 50 existing bags and many new designs, we've settled on this one as the best available anywhere. A formed, padded case of high quality Cordura, a tough but attractive material. The Ultimate will fit even the Toshiba 3100, Zenith 183 and the IBM Convertible (with one "slice").

Inside are two large pockets for working papers, three smaller patch pockets for disks, modems and other accessories, as well as a moveable A/C adapter divider. All inside pockets have velcro fasteners. There is also a special velcro strap to hold your laptop snugly in place. Outside there is a large zippered pocket suitable for power supplies or additional working papers.

Available in a handsome grey with black strapping at a fraction of what you would pay for a bag with half the features of the Ultimate.

The Ultimate Laptop Attache Order # AC-BG-01 **$59.95**

Large In Size, Large in Value

The Extra Large Ultimate Laptop Attache

Judging by the response, the Ultimate Laptop Attache was a big success. The only way we could think of to make it better was to make it bigger. So here it is, the immensely popular Ultimate – even bigger! The outside pocket is ideal for carrying a Diconix printer, Fax, and even a Modem! 4-1/2"×14-1/2"×18". Available in padded, high quality Cordura. Grey with black strapping.

The Extra Large Ultimate Laptop Attache Order # AC-BG-02 **$79.95**

Simple, Versatile Modems

WorldPort 1200 & 2400

Portability—Powered by its own 9 volt battery or optional AC adapter, it draws no power from your computer. The WorldPort is the smallest modem of its type available today.

Compatibility—The WorldPort works with virtually any computer with an RS-232C serial port. Transfer it from computer to computer as needed. Fully compatible with the industry standard Hayes AT Command Set including the latest extended commands. This provides access to a vast range of communications software and existing applications.

Versatility—The WorldPort meets dual communication standards allowing use throughout the world. Both U.S. accepted BELL 103/212A standards for 300 and 1200 bps and the international CCITT V.21 (300 bps) and V.22 (1200 bps) standards are supported. Both standards are switch and software selectable. The WorldPort comes with the U.S. standard modular telephone jack and an acoustic cup adapter.

Portable Extras—The WorldPort 1200 comes complete and ready to use with a comprehensive user manual, modular phone cable, adapter cable for use with the optional acoustic cups and the nine volt battery!

The Link Between Your PC And The Phone Lines

Modem Mouth

Make direct connection with modem or fax from any round phone mouthpiece. Simply unscrew the phone mouthpiece, replace with your Modem Mouth, insert the direct contact cord from your Modem or PC, then dial as you normally would. A direct connection preserves line sensitivity and eliminates environmental noise.

Forget heavy, bulky acoustical connections. Modem Mouth can be carried in your shirt or coat pocket. When your transmission is complete, unplug your modem jack and use Modem Mouth as a regular mouth piece.

Modem Mouth Order # AC-MM-01 **$49.95**

Increases speed and accuracy of data entry and spread sheet operations.

NUMERIKEYS

An auxiliary numeric keyboard designed for IBM computers and compatibles. It features keys necessary for spreadsheet applications, including separate numeric, cursor control, symbol and function keys.

Groups by function

Save time spent entering numbers, searching for symbol keys, function keys or cursor controls. Easy to use for novice or expert. "Shares" the parallel printer port. Operable while printing. Uses a negligible amount of power and weighs less than one pound. Comes in a leatherette carrying case that will easily fit in your brief case or laptop attache.

The Attention Director

Elmo Laser Pointer LLP-100

Keep your audience's attention focused where you want it. Can be operated from all the way across the room and still be effective. Hand held, operates on 9 volt alkaline or lithium batteries. Can also be operated from an AC adaptor. Throws a concentrated Laser beam up to 100 feet that is not harmful.

Elmo Laser Pointer LLP-100 Order # AC-EL-02 **$395.00**

Connects your IBM compatible desk top computer directly to a Tandy M100/102/200 or NEC 8201/8300.

LapDOS II

A direct connection between your IBM PC and your Tandy laptop or Purple Computing portable disk drive. LapDOS II lets your IBM PC or compatible "talk" directly to your laptop by connecting a simple null modem cable. Our three connector cable will work with all IBM or compatibles including XT, AT and the new PS/2 Series. Plug in the cable and with your LapDOS II software you will be transferring files between your Tandy or NEC laptop and your IBM PC at speeds up to 19,200 baud instantly.

Features

Rename, view and delete functions. Supports subdirectories on IBM compatible desktop computers. Also supports both Tandy 100K and 200K disk formats. Exchange ThinkTank, SideKick and Word Star files with IDEA! files and other programs. Complete with cable adapter for the Tandy disk drive and a special 3 headed universal cable to connect your Tandy/NEC to all IBM compatible desktop computers.

LapDOS II Order # PC-LD-01 **$129.95**

Connect your Macintosh directly to a Tandy M100/102/200 or NEC 8201/8300.

MacDOS II

Connect your Macintosh directly to your laptop or Tandy or Purple Computing portable disk drive. MacDOS II lets your Macintosh "talk" directly to your laptop by connecting a simple null modem cable. Also included is our special cable with connectors for all Macintosh computers including the Mac 512, Plus, SE and Mac II. Just plug in the cable; with your MacDOS II software you'll be transferring files between your laptop and your Mac at speeds up to 19,200 baud instantly.

Manage Your Data

With MacDOS II your Macintosh can read and edit files created with your laptop. Open, edit and print files on the portable drive as easily as regular Macintosh files. Copy all of your files from the portable drive to the Macintosh for easy backups.

EASY TO USE

MacDOS II gives you access to the data you want when you want it.

Features

Full editing capabilities for files less than 32K in size. Up to 4 file windows open at a time. Catalog window shows files on the portable drive. Copy all functions for quick file transfers. Supports both Tandy 100K and new 200K disk formats.

Includes new universal cable with connectors for **all** Macintosh computers.

24K Memory Chip for the Tandy 200

Installs in the Tandy 200 in less than two minutes – the only tool necessary being a coin to pop open the hatch. Install up to two of these chips to bring the Tandy 200 to 72K. Low power requirements, for long battery life. Pins made especially for the Tandy 200 expansion compartment. **Two-year warranty.**

24K RAM Chip M200 Order # AC-CH-04 **Call**

Four applications on one chip!...plus direct access to TS-DOS or Sardine.

The Ultimate ROM II

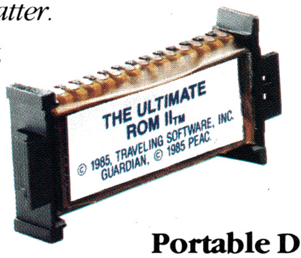
ROM-View 80—*Set screen display from 10 to 60 characters per line, 80 with scrolling.*

Use in TEXT, TELCOM, BASIC and ULTIMATE ROM II applications.

Note: TS-DOS will be substituted on the Tandy 200 version.

T-Word—*Full word processor and print formatter.*

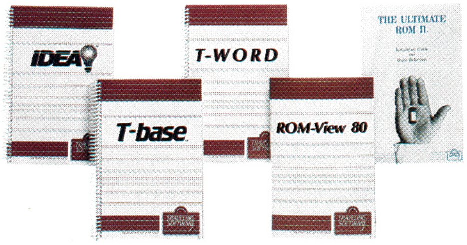
Search and replace, overwrite, word count, hanging indentation, headers and footers, conditional paging, right justification, fast text formatting by menu or control codes. Preview documents three ways before printing (including pixel page plot). Merges everything from single words to complete files. Supports virtually all printers having such features as bold-face, underline, condensed print.



Idea! *The great flexible outline organizer*

Anything from simple lists to complex outlines organized, re-organized, sorted, searched. Includes many database and word processing capabilities.

NEW! Faster operation, preview mode, template-generating feature. With LAPDOS II, files can be exchanged with Think Tank files.



T-base—*The true relational database*

Borrow information from seven other files. Set up formulas for spread sheet-like calculations. Use easy report writing feature.

NEW! Faster operation; floating decimal; calculation of sines, square roots, etc.; conditional and logical calculations, exchange files with desktop programs like dBASE II and III, R:base 5000, and Word Star MailMerge.

Portable Disk Drive Support

Loads TS-DOS From The Portable Disk with One Button

No need to load files into the computer. With disk files, T-Word allows all of the merge operations possible with RAM files.

Virtually all popular laptops are supported.

With any catalog purchase, the $29.95 signup fee will be waived!

A special GEnie coupon detailing ordering and sign-up procedures will be included with the shipment of your order. For more information please call GEnie at 1-800-638-9636 (voice)

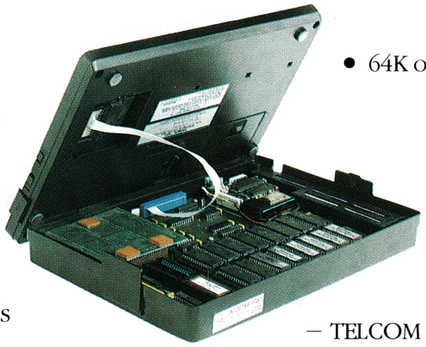
The Traveling BBS

24 hours – 7 days a week (206) 485-1736 8 bit-no parity-1 stop 300/1200/2400 Baud

Now you can call the Traveling Software computer directly for product information and FREE public domain programs.

BOOSTER PAK

2 Megabytes of RAM and/or ROM memory for the Tandy 100/102!



Just snap the BOOSTER PAK onto the bottom of your Tandy 100/102, plug in two cables and you're in business. You can customize it to meet your needs now and in the future.

Features:

- 136K of RAM memory (96K available for files)
- TS-DOS disk software built-in
- X-TEL communications software built-in
- Fast action Asteroids game (with great graphics) built-in
- 64K of ROM software
  - 11 socketed slots for 32K RAM and/or ROM software chips
  - 2 Tandy MOLEX ROM sockets
  - Provision for a built-in 1200 baud Hayes compatible modem
  - Continuous RAM software built-in (no bank switching or copying)
  - File folders/subdirectories supported
- TELCOM supports file upload/downloading to Booster Pak
- Long life lithium battery for RAM backup (rated 7 years)
- BASIC programming access to virtual RAM
- ROM environment software (enables use of multiple ROM software without conflict)

Tandy 100 BOOSTER PAK (136K) Order # AC-BP-01 **$499.00**
Tandy 102 BOOSTER PAK (136K) Order # AC-BP-02 **$499.00**

BOOSTER LINK

Booster Link makes your IBM desktop computer act like a portable disk drive allowing TS-DOS to load, save, rename and kill files directly. Booster Link allows you to transfer files between your desktop computer and your Tandy 100/102/200 or NEC PC-8201/8300 using a serial cable and TS-DOS or any other disk operating program for the Tandy or Purple Computing portable disk drive.

If you have the Booster Pak or the ROM version of TS-DOS you can also create and move from subdirectory to subdirectory with the push of a button.

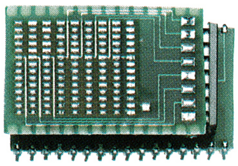
Booster Link comes with a three connector cable and is available for the IBM PC/XT/AT or compatibles.

Booster Link – includes cable
IBM version Order # PC-BL-01 **$99.95**
(Booster Pak owners save $30.00 **$69.95**)

A Completely Open System

Add more RAM, ROM software, Nicad batteries or a 1200 baud Hayes compatible "WorldPort" modem to suit your personal requirements.

JAPAN
SRM20256LC12
F7XE 513



Choose from these available options

- 256K RAM packs (0 to 2 megs total RAM)
- 32K RAM CMOS chips
- Internal rechargeable Nicad battery pak
- IBM Booster-Link software (includes cable)
- Sardine Plus word processing and spelling checker (Four chip set includes complete 35,000 word Random House dictionary)

Item	Order #	Price

The first electronic spelling checker for laptop computers.

Sardine

We include the 35,000 word Random House Pocket Dictionary.

SARDINE
SARDINE
Random House DICTIONARY
American Dictionary
SARDINE

Faster than a desk top – (Processes over 13,000 dictionary words per minute!)

Look up a single word in seconds or check a 25K document in less than three minutes.

Corrections are inserted automatically at your command.

Create your own auxiliary dictionary of special terms, words, names, abbreviations up to the extent of available memory.

Special on the ROM plug-in chip – Word process with the acclaimed T-word program, plus over 7,000 of the most frequently used business words (as determined by a two-year, one million word study of business correspondence conducted by Wang Laboratories).

Compatible – Use with the Tandy M100/102, M200 and NEC 8200/8300 laptop computers. Recommended minimum 16K RAM, Tandy/Purple computing disk drive (optional for ROM version).*

Free – Your own personal copy of the Random House American pocket dictionary with every Sardine you buy.

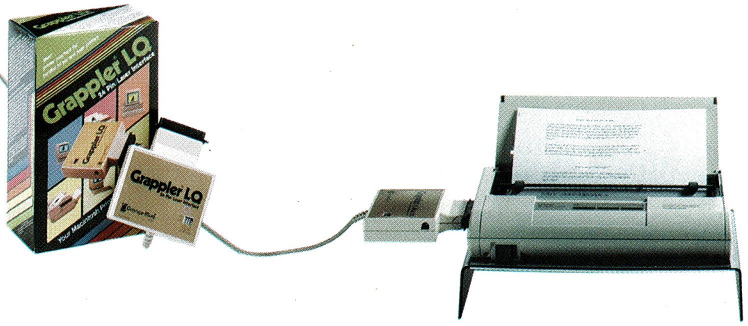
Get Laserwriter like output from your Mac without a Laserwriter!

GRAPPLER LQ

The intelligent connection between Macs and 24 Pin Dot Matrix or Laser Printers.



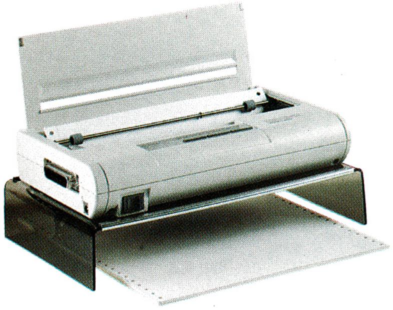
Grappler LQ Spooler: Loads easily into Macintosh Control Panel. Works exclusively with Grappler LQ Hardware. Supports all ImageWriter LQ compatible software. Spooling also works with 24 pin dot matrix printers. Supports laser printers from Hewlett Packard, Okidata, C. Itoh, and many others. Supports HP DeskJet.

24 Pin Dot Matrix Printers: Epson: LQ series Toshiba: P351, P1351, and all compatibles C. Itoh: 751 (with Epson LQ personality module), C-815, NEC: P series and printers fully compatible with any listed above.

Laser Printers

Okidata Laserline 6, HP Laserjet Plus, II, DeskJet, Kyocera, and other HP compatibles.

24 pin GRAPPLER LQ Order # AC-GR-02 **$149.00**



Portable Printer

DICONIX 150

This is the best battery-operated plain paper printer made. Uses same ink jet cartridges as the Hewlett-Packard Think Jet printer does. IBM Graphics and Epson compatible. Prints in draft mode at 150 cps and in near letter quality mode at 50 cps. For best quality printing, a coated stock clay paper should be used.

Comes standard with a Centronics parallel interface. Works great with 9 pin Grappler. Weighs 3.75 lbs. with batteries. Includes A/C adaptor.
Measures only 2"×11"×6-1/2".
Now includes a sturdy smoke grey lucite carrying case/printer stand

DICONIX 150
Order # AC-DP-01 (parallel)
Regular $479.00 **Special $389.00** Save $90

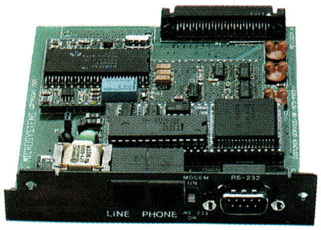
DICONIX Accessories and Supplies
Printhead Cartridge
Order # AC-DP-04 **$10.95**
(prints up to 500 pages of text)
Ink-Jet Paper
Order # AC-DP-03 **$29.95**
(9-1/2"×11" Continuous form, 1,000 cnt box)
Printer Stand
Order # AC-DP-02 **$13.95**

Use most 9 pin dot matrix printers with your Apple II or Macintosh computers!

Grappler

This is a serial/parallel converter with an intelligent ROM that converts Apple Imagewriter codes to those that drive your printer. You no longer need to buy an Imagewriter from Apple at double the price of some compatible printers. Allows you to use the same printer for MS-DOS and Apple computers.
WORKS WITH: **Epson:** EX, FX, JX*, RX, LX series, MX* series (with Graftrax). **Star:** SD, SR, SG* series, Gemini 10X*, NX-10 (Epson FX mode). **Okidata:** 190, 290 series (with Okidata Microline personality module). **C. Itoh:** C310XPR (Epson FX mode), Panasonic: 1080i, 1090i series. **Citizen:** MSP10 (Epson FX mode). And printers fully compatible with any listed above.
*Models without reverse line feed capability will exhibit problems with vertical page placement on continuous feed paper. Consult your printer manual.
NOT SUPPORTED: IBM ProPrinter, NEC 8023, C. Itoh 8510, all daisywheels.

9 Pin Grappler Order # AC-GR-01 **$119.00**



Internal Fax For Your Zenith Laptop

LAPFAX

No need to carry an extra piece of equipment when you go on the road. Fax graphs, reports, etc. from your PC laptop back to the home office. Works with touch tone or pulse dialing. 4800 BPS Group 3 compatibility. For Zenith 181, 183, 184 supersport and Supersport 286. Two year warranty. Made in U.S.A. Holmes is a leader in Fax/Modem Technology.

LAPFAX
Order # AC-FX-01 **$599.00**

The next best thing to flying

Flight Simulator 3.0

New version of the popular MICROSOFT game. Fly a simulated single engine plane into and out of more than 100 airports. See buildings, clouds, mountains and well known landmarks. Features realistic crash effects. Panoramic out-the-window views that closely match a pilot's perspective. Play on your laptop while actually airborne! Supports EGA and VGA graphics.

Flight Simulator
IBM PC 3-1/2" Disk Order # PC-FS-01 **$49.95**

Carry your opponent with you.

LAPTOP CHESS

Created by David Levy, International Chess Master, and Keven O'Connell, Chairman of the Computer Chess Committee of the World Chess Federation.

Features:
Excellent graphics – See the pieces move across the board!
16 Levels of Play – From beginner to expert, 16,000 move opening book. Save games in progress, flexible easy-to-use move entry. Special Problem Mode, On-Line Help, On Screen Chess Clock, Printer Support

Laptop Chess IBM 3-1/2" disk Order # PC-LC-01 **$34.95**

A Collection of Solitare Games

SOLITAIRE ROYALE

Eight different versions of one of the world's most intriguing time passers to take wherever you and your laptop go. Play alone or match your score with an opponent. No cards, shuffling or dealing to worry about. Random computer dealing insures that you will never play the same game twice.

Features: 8 different games – Tournament competition – Scoring – User selectable card decks – Changeable background colors (CGA mode) – Menu driven

Added Feature: Three Childrens Games – Pairs, The Wish and Concentration

Solitaire Royale Order # PC-SR-01 **$34.95**

The Latest Computer Game Sensation

TETRIS

Developed in the Soviet Union by two programmers, Tetris is simple, fascinating and addictive! The simple part is the concept: Make a variety of different shaped pieces fit together solidly without gaps as they descend down the face of your screen. The fascinating part is flipping, rotating and moving these pieces as they drop. The addictive part is you can increase the speed with which the pieces drop and earn more points as your skill increases!

TETRIS IBM version Order # PC-TE-01 **$34.95**
Mac version Order # AP-TE-01 **$34.95**

Features:

- Ten difficulty levels.
- Five heights to start from.
- Replay last game option
- Randomly generated pieces.
- Scoring system with top ten scores recorded.
- Optional mode to preview next shape to fall.
- Statistic screen shows a running total of the times a particular shape has appeared in one game.
- Help screen.
- Beautiful background graphics.

Specific laptop computer models (listed on reverse side of package)
Uses only 10-20K of memory
Battery Monitoring and Maintenance Software for Laptop Computers.

A Reliable And Accurate Battery Monitor

BATTERY WATCH

Won't let your battery let you down. Battery Watch lets you keep track of your battery's true reserves and maximum charging capacity so you can save files or get a recharge before it is too late. No unpleasant surprise.

NiCad batteries are sneaky. Unlike traditional batteries that gradually lose strength, a NiCad dies quickly and completely, leaving you twisting in the wind, all your hard work gone in a flash.

Deep Discharge feature saves battery capacity. NiCad batteries can begin to believe they have less capacity than they actually do and therefore accept less of a charge. Battery Watch's DeepDischarge feature retains your battery's memory to accept a full charge.

Supports All Popular Laptop Models: Amstrad PPC, Datavue Spark, Epson Equity LT (LCD), Epson Equity LT (backlit LCD), Gridlite Plus, IBM Convertible, NEC Multispeed, NEC Multispeed HD, Sharp 4501, Sharp 4502, Sharp 4521, Tandy 1400, Toshiba T1000, Toshiba T1100+, Toshiba T1200, Toshiba T1200 (backlit LCD), Zenith Z-181, 183, 184, Zenith Supersport, Zenith Supersport 286

Battery Watch Order # PC-BW-01 **$39.95**

For Class and Carry

Leather Disk Wallet

Made of beautiful, supple, top grade Calfskin with a silver Traveling Software logo. Fully lined in Nylon, Velcro closures, Six pockets. Fits easily into your jacket pocket or purse. Measures 1/2"×8-1/2"×4-1/4".

Leather Disk Wallet Order # AC-DW-03 **$24.95**

A Must For Anyone Who Uses 3-1/2" Disks

The Traveling Disk Wallet

Our unique design (patent pending) includes pockets for eight 3-1/2" disks. Constructed of rugged, long lasting Dacron and Nylon. Only 8-1/2"×4-3/8", fits easily in a purse or inside jacket pocket.

Traveling Disk Wallet Order # AC-DW-02 **$6.95**

Keep Disks Organized And Protected

TRAVELING 12-PAK

Carry 12 3-1/2" disks easily and safely and keep them in order. Disks can't fall out. Includes a clear business card holder. Measures 1 1/4"×11"×5-1/4".

Features: Rugged 1000 denier Cordura Nylon exterior
Nylon lining
6 pockets per side with elastic/velcro closing straps.
Color: Royal Blue with white logo.

Traveling 12-+-Pak Order # AC-DW-01 **$14.95**

A Hand Held Personal Computer

WIZARD

The ultimate electronic organizer with built-in functions to save you time. More powerful than the original IBM PC, it is also a full functioned computer. The WIZARD uses state of the art IC RAM cards for its applications programs. With the card and its own RAM, WIZARD puts 256K of ROM and RAM power at your disposal. Its eight line LCD display makes scrolling through information almost unnecessary.

Jointly developed by Sharp Electronics and Traveling Software, WIZARD represents a tremendous break through in portable (8 oz.) computers. Since we helped develop some of its software, we will be able to support WIZARD completely!

Our time/expense manager facilitates quick entry of all expense items, also enables you to track time for billing of clients. Back in the office use the WIZARD PC-Link to transfer this information into Lotus, Dbase, or other PC applications.

FEATURES

- 128K ROM software built-in
- Large Display: 16 characters × 8 lines, convertible to 10 characters × 4 lines for easy reading.
- Easy to use keys: Full alpha keyboard with separate numeric keys.
- 32K RAM memory – with cards up to 256K
- Secret function that protects your data from being read by an unauthorized person.
- Connects to CE-50P, a pocket printer.
- 7 built in functions:

Calendar: Monthly, weekly and daily calendar for up to year 2099. Marks the dates that you have appointments.
— Side Kick appointments can be imported with Wizard PC-Link

Telephone: Allows you to store up to 600 names, office numbers, home numbers, fax numbers, addresses, and other information. View up to 8 lines at a time.
— Side Kick phone lists can be imported using Wizard PC-Link

Memo: Allows you to store up to 70 pages of information.
Local/World time: displays in both 24 hour and 12 hour format. You can select any city in the world as reference, and the WIZAISD will tell you the local time in that city.

Card: The optional software IC cards will turn the WIZARD into anything you want:
— Thesaurus/Dictionary with up to 87,000 words
— 8 Language Translator
— Time/Expense Manager

Schedule: Daily and weekly appointments.

Calculator: 3-Key memory and paperless printer.

SPECIAL
60 DAY
MONEY BACK
GUARANTEE

A utility software program to integrate the Wizard hand held computer with your P.C.

WIZARD PC-LINK

Data Transfer: Sends and receives files between the Wizard and your PC.

Data Conversion: Converts data to and from the Wizard into several different file formats (including Lotus, SDF and Side Kick) and printed reports.

Data Creation: Wizard PC-Link allows you to enter data for use with the Address, Schedule, and Memo programs on the Wizard and to store the new information in a file on the P.C.

TIME/EXPENSE MANAGER

To Do List Manager: A flexible tool for managing tasks. Sort and view To Do List records by deadline, manager name, task priority or project name.

Expense Manager: An easy to use method of tracking expense information for the traveling business person. Quickly enter expenses. Reporting options allow you to see total expenses by expense or payment type in categories you define.

Time Accounting: Track time spent on tasks. Can be categorized as billable or nonbillable. Time individual activities to obtain an accurate record of the time spent on each task. View total time spent by client or by task.

Note: Both Time and Expense information can be converted directly into a Lotus spreadsheet using Wizard PC-Link.
(Includes 32K RAM on card for data.)

LAP-LINK Mac
Links Macintosh with IBM-compatible desktop and laptop computers
Traveling Software

Laplink Macintosh connects to the Mac's serial port and transfers files back and forth to an IBM PC or compatible at incredible speeds (up to 57,600 baud). Faster than any previous Macintosh serial transfer product! Uses the same split screen design as the original LapLink, even supports transferring IBM subdirectories to Macintosh file folders or vice versa! Great for transferring word processing files from your laptop into the Mac for desktop publishing applications.

Includes a special 6 foot cable with four connectors built in, that works with any version of the Macintosh as well as IBM PC, AT or PS/2. Our Mac version has been designed and produced with the same level of quality and performance you expect from a Traveling Software product. An incredible value!

Macintosh LapLink 2.0 Order # AP-LM-01 **$139.95**
including special four connector cable.

- Softgraf's advanced software drivers "fool" your monochrome system into thinking it's running a CGA, allowing it to run nearly all games, color graphics programs, and business software normally requiring a CGA adapter.
- Softgraf's ultra-efficient screen writing routine eliminates image "ghosting," even when running fast-moving games. And its sophisticated AFC feature keeps the screen picture looking sharp.
- Softgraf's advanced pixel-for-pixel screen re-map technique makes your monitor display exactly as if you were running a CGA color system.
- Colors tone as shades of amber or shades of green.
- Uses less than 12K RAM.

SYSTEM REQUIREMENTS
IBM compatible Personal Computer with minimum 192K RAM, equipped with a Hercules™ compatible video display card.

Run Color Graphics Programs On Your Monochrome PC!

SOFTGRAF

Advanced Software drivers "fool" your monochrome system into thinking it's running a CGA, allowing it to run nearly all games, color graphics programs and business software normally requiring a CGA adapter. Pixel for pixel screen re-map technique makes your monitor display exactly as if you were running a CGA color system. Colors tone as shades of amber or green. Uses less than 12K RAM. Ideal for many laptop LCD displays. Menu driven, simple to use.

The Ultimate Modem Connection

Mo-Fone

Allows the use of single and multi-line systems as fax/modem lines. You can bypass hardwired installations encountered in offices or hotel rooms. Functions with all types of telephones and office systems. Can be left in place permanently and the telephone will still function in its normal fashion. Has Polarity switch, Voice/Data switch and Phone type switch. Plugs directly into the handset of most phones. Does not require a round mouthpiece.
Mo-Fone Order # AC-MF-01 **$89.95**

Three Programs on One ROM Chip for the Tandy 100/102/200, NEC PC 8201/8300.

ROM 2/Cleaseau

A software development tool on a plug-in chip. The ROM 2/Cleaseau is actually three programs in one:

A TEXT Editor: Append to the Paste buffer, search and replace, insert or overwrite, uppercase or lowercase a selection of text, count the number of bytes, words, lines, repeat any command a specified number of times, search forwards or backwards, search for control characters, verify a file with a saved file, and more!

A BASIC Inspector: Allows you to follow your program, step by step, and determine which statement in a line caused an error. Cleaseau's editing commands help keep your program well organized.

A Macro Assembler and Symbolic 8085 Debugger: Assembles 300 lines per minute and uses the complete 8085 instruction set. Also supports user defined macros, conditional assembly and complete expression evaluation. With the ROM 2 debugger you can simulate 1000 instruction per second, inspect memory locations by name, disassemble memory into 8085 opcodes, redirect output to the printer, lcd or serial port, trace program execution, set break points and single step into, out of and over sub routines.

ROM 2/Cleaseau

(M100/102)	Order # R1-RC-01	**$99.95**
(M200)	Order # R2-RC-01	**$99.95**
(NEC)	Order # NE-RC-01	**$99.95**

Works On New 200K Or 100K Disk Drives

TS-DOS

TS-DOS is a complete operating system for the Tandy and Purple Computing 3-1/2" disk drives.

With TS-DOS you can list files both on disk and in RAM, save to disk, load into RAM, kill, and rename files simply by selecting a file with the bar cursor and pressing a function key.

TS-DOS allows you to save and load files directly in TEXT, and write BASIC programs that access files on the disk.

The Tagging feature lets you load, save, or kill several files at once – at a substantial savings in time. You can tag all files at once or individually, you can even remove tags.

With the ROM version of TS-DOS and new Booster Link software you can perform all these operations directly on the disk drives of your desktop computer.

TS-DOS on DISK occupies 5.5K of RAM and TS-DOS on ROM occupies no RAM space at all

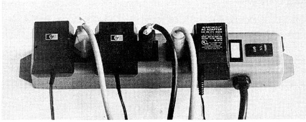
Pocket Power Converter

STAT POWER

Operates AC powered portable computers and peripherals from autos, boats, planes, battery packs or any other 12 v source. Instant 115v power available. Small and lightweight, totally portable. Simply plug in to your cigarette lighter. No wiring or adjustments. Low power draw, protection against overload. Audible alarm indicates low battery condition. Auto shut down prevents harm from deep discharge. Operates Toshiba 3100, 3200, 5100 Compaq Portable III, Macintosh 128, 512, Plus, SE, as well as most printers.

STAT POWER Order # AC-SP-01 **$179.95**



Keeps All 6 Positions Available All Of The Time

AC Adapter Power Strip

In keeping with the spirit of the Traveling Software catalog, we are including this one-of-kind power strip for all of you who use your AC power adapters while in the office or at home. How many times have you filled an ordinary six outlet power strip with only two or more outlet positions? Our unique six outlet power strip uses outlets mounted at a 90 degree angle. Allows for AC adapters to hang over the side instead of taking up another outlet position. Industrial quality, includes a built-in circut breaker and pilot light.

AC ADAPTER STRIP Order # AC-AC-01 **$28.95**
